

# School of Education 2021 Webinar Series – Celebrating Social Justice Research in Education

The School of Education at the University of Glasgow, in conjunction with the Centre for Research and Development in Adult and Lifelong Learning ([CR&DALL](#)), the [Robert Owen Centre for Educational Change](#) and the [UNESCO Chair in Refugee Education through Languages and the Arts](#) invites you to our Webinar Series 2021. The series celebrates the work of our researchers and those they work with in these most challenging of times, during which they have continued to make a real difference for society's most vulnerable and educationally disadvantaged, from local to global levels. This showcase illustrates some of that work, and will be presented in 5 webinars using the Zoom platform. It highlights some of our most significant and impactful work during the last decade within each of the main themes of the school: **Urban and Place Based Learning, Collaborative Schooling for Change, Adult Learning and Youth Transitions, Migration and Refugee Education and Ethics, Religion and Values in Education**. Each webinar will focus on 3 or 4 projects, and will be complemented by reflections by some of our key collaborators around the world, within and beyond the academy. All are welcome to join us, and details to register are provided below. These links provide outlines of the inputs to each webinar. Individuals should register separately for each of the webinars they are interested in, and more details of each event will follow.
